**ANNUAL
PAYMENT
MEMBERSHIP**

calhounseptic@gmail.com

Calhoun's is providing customers the opportunity to become a member of our new annual payment plan. This membership is designed as a cost-effective, preventative plan that takes the hassle and stresses away from septic system owners by scheduling routine inspections, maintenance, and pump outs for members.

All too often, septic system owners are reactive rather than proactive. While this is understandable as the tank is buried and out of sight, sustained usage over a period of time can cause significant blockage and damage when not regularly maintained, causing major headaches when the surprise blockage starts pouring back into the house or causing irreparable damage to drain fields.

Our annual membership helps to prevent these untimely and costly situations from happening.

Why join this plan?

Regular inspections help combat small issues manifesting into larger expensive problems

Preventative management allows long-term savings extending the life of the system

Distribution of septic management costs

Stress-free management of your septic system

Update reports, including pictures following each visit

Discount on all extra services
